Examiner's statement of reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: For claims 9, 25 and 34, the prior art of record does not teach or fairly suggest an electronic commerce distributed network including a processing engine comprising: a plurality of communication units operable to communicate with participating organizations in a plurality of communication protocols, the units further operable to receive electronic commerce messages from originator organizations and communicate messages to recipient organizations and an engine to process electronic commerce messages received from an originator organization and to build an outgoing electronic commerce message for transmission to a recipient organization and invoking selected functions from a matrix of functions where the selected functions are chosen based upon the profiles for the originator organization and the recipient organization and an interface unit coupled to and communicating with the plurality of communication units and the engine, the interface unit allowing incoming and the outgoing electronic commerce messages to be communicated between the plurality of communication units and the engine, the processing engine providing electronic commerce interconnectivity for participating organizations that have different computer and communication environments.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure

- US patent No. 6,259,700 discloses an Electronic Commerce Distributed network.
- US patent No. 5,964,831 discloses a Distributed on line data communication system.
- US patent No. 6,907,401 discloses a Portal for Electronic Commerce

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
